Architectural Hardware

2

V5 Architectural Hardware was formed with the sole aim of giving the best products with superior quality. We continue to cater the customers' aspirations with the help of our marketing team and backed by a strong dealer network across the country.

The company has a committed team of professionals and skilled manpower, equipped with work in company's state of art manufacturing plant. It has a dedicated R&D Division which is endlessly making innovations in **V5** range of products. It has helped to diversify company's products in locks and hardware segments. R&D section has contributed in generating the products by modern means of computerized key mechanism, matching international standards.

The extensive range of products is elegant and matchless in style, Today the company is manufacturing the variety of products includes brass forged mortise handles & plates, stainless steel Door handles, pin cylinder mortise locks & lever locks, etc. for a multi user environment. The door handles are offered in various finishes to match and blend with interiors and customers' preferences.

We believe in 'Excellence' that results from total commitment to service and quality. It makes our products more reliable and Desirable a Customer's Delight.

We assure our best services to our customers in days to come.
